

# Kushmal Arora

Prayagraj, India | kushmalarora017@gmail.com | +91 8756338559  
linkedin.com/kushmalarora017 | github.com/kushmal17

## Career Objective

Full Stack Developer with expertise in front-end and back-end development, skilled in building scalable web applications, optimizing user experiences, and delivering end-to-end solutions. Seeking to contribute technical skills and problem-solving abilities to drive innovative software development.

## Academic Qualification

- Bachelor's in Computer Application (IBM specialization)**

United University, Prayagraj

- Intermediate**

Air Force School, CBSE Board

- High School**

Air Force School, CBSE Board

## Professional Training

### WEB DEVELOPMENT INTERN

(JUNE 2025 - SEP 2025)

- Developed and deployed responsive web applications using HTML, CSS, JavaScript, and React.js for the front end.
- Built RESTful APIs and handled server-side logic using Node.js and Express.js.
- Designed and optimized database schemas using MongoDB / MySQL, improving query performance and data reliability.
- Integrated third-party APIs and payment gateways to extend application functionality.
- Used Git and GitHub for version control and collaborated on code reviews through pull requests.
- Deployed applications on cloud platforms (Vercel) ensuring smooth CI/CD workflows.

### WEB DEVELOPMENT INTERN

(JUNE 2025 - JULY 2025)

- Designed and developed responsive, user-friendly web pages using HTML, CSS, and JavaScript.
- Assisted in creating dynamic websites using modern frameworks such as React.js / Bootstrap.
- Collaborated with the backend team to integrate APIs and improve data flow between client and server.
- Optimized website performance and loading speed, enhancing user experience.
- Debugged and tested code to ensure cross-browser compatibility and functionality.
- Participated in team meetings and code reviews, contributing to feature design and improvement discussions.
- Worked closely with the design team to translate UI/UX designs into interactive web pages.

# Projects

---

## Restaurant Website

- Designed and developed a responsive and user-friendly restaurant website using HTML and CSS for the front end.
- Built dynamic web pages with PHP to handle user interactions and display menu items, offers, and booking details.
- Integrated a MySQL database to store and manage customer data, reservations, and menu information.
- Implemented user authentication and admin dashboard for managing menu updates, orders, and bookings.
- Used PHP-MySQL connectivity to perform CRUD operations (Create, Read, Update, Delete) on restaurant data.
- Deployed the website on a local or online server (XAMPP) for public access and demonstration.

## TO-DO APP

- Developed a full-stack To-Do web application using the MERN stack to manage daily tasks efficiently.
- Designed a responsive and interactive user interface with React.js, allowing users to add, edit, delete, and mark tasks as complete.
- Built RESTful APIs with Node.js and Express.js for handling task creation, updates, and deletions.
- Utilized MongoDB as the database to store user data and task lists with efficient schema design.
- Implemented CRUD operations to ensure smooth data management between frontend and backend.
- Fetch API for seamless client-server communication.
- Deployed the app on Vercel (frontend) and MongoDB Atlas (database) for online access.

# Skills

---

**Computer Language :** Java, JavaScript , Python , R

**Soft Skills :** Team Collaboration, Problem-Solving, Time Management.

**Frameworks / Libraries :** TailwindCss , Numpy , Pandas , Matplotlib , Scikit-learn Web

**Technologies :** Html, HTML5, CSS , Tailwind CSS , Bootstrap , JavaScript, PHP, Tailwind

**Tools & Technologies :** Git, VS code

## Area of Interest

---

- playing guitar
- Physical activities
- web designing

## Awards & Certifications
